About Client

The client is one of the leading B2B level solution providers for CFO & executive officers to help them manage their finance and funds easily.

Business Requirement

- Develop platform for executive level officers which enables them to manage finance and funds along with delegation workflow.

- The tool that is revenue centric and plays an important role in future expense prediction from the current financial specification & allows to decide the current situation.

Our Solution

- Organize the agency with master modules like financial year, department, division, branch, vacancy, employee, location, and employee attendance & salaries

- Budget planning & approval workflow setup, here, CFO sets the benchmark; employees plan their budget through direct amount against the budget line item and submitting it for approval with multi-level workflow and delegation rules

- Budget planning
  » Setup benchmark
  » Budget submission
  » Budget locking

- Budget Execution/tracking (via multiple processes)
  » Requirement alteration
  » Managing funds

  » Requirement tracker
  » Contract & amendment
  » Invoicing
